DETAILED ACTION

Response to Amendment

1. In response to the Amendment received on June 16, 2006, the examiner has carefully considered the amendments. The examiner acknowledges the cancellation of claim 2.

Terminal Disclaimer

2. The terminal disclaimer filed on June 16, 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Application Serial Number 10/718,408 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Response to Arguments

3. Applicant's arguments, see Remarks/Arguments, filed June 16, 2006, with respect to claims 1-9 have been fully considered and are persuasive. The rejection of claims 1, 3-6, and 9 under 35 USC 102(b) as being anticipated by Hiwara et al (6,166,100) has been withdrawn. The rejection of claims 1, 3-6, and 9 under 35 USC 102(b) as being anticipated by Makoto et al (JP 08-143806) has been withdrawn. The rejections of claims 7-8 under 35 USC 102(b) as being anticipated by or, in the alternative, under 35 USC 103(a) as being obvious over Hiwara et al (6,166,100) as evidenced by Bassemier et al has been withdrawn. Applicant's amended adding the epoxy compound represented by the general formula (1) with subsequent definitions is deemed to distinguish the instantly claimed active energy ray curable ink-jet ink over the prior art. The prior art while teaching ink-jet ink compositions comprising epoxy compounds having alicyclic epoxy groups and an epoxified fatty acid ester group, the prior art fails to teach ink-jet inks comprising epoxy compounds having the instantly claimed formula. Thus any printed material having printed thereon the ink-jet ink as found in instant claim 1 is, also, deemed distinguished over the prior art.
